Warrant for Town Meeting

JANUARY 12, 1909.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK ss.

To John W. Crisp, a constable of the town of Needham, in said County, GREETING:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the town of Needham, qualified to vote in elections and town affairs, to meet at the town hall in said town on Tuesday, the twelfth day of January next, at eight o'clock in the afternoon, then and there to act upon the following articles, viz:

ARTICLE 1. To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary to cover any deficiencies that may appear in the appropriations for the fiscal year ending December the thirty-first, nineteen hundred and eight.

ARTICLE 2. To see what action the town will take in regard to unexpended balances.

ARTICLE 3. To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary to carry on the several departments of the town for the re-

mainder of the municipal year ending March the first, nineteen hundred and nine.

Article 4. To see what action the town will take wherein the water meters shall be read, and the owners of the property notified in case of excess water at least every thirty days, or take any other action thereon, upon petition of T. T. Maloney and others.

Article 5. To see what action the town will take relative to the purchase of a tract of land for a public recreation and play ground, upon petition of George W. Tisdale and others.

Article 6. To see if the town will vote to have a regular policeman stationed in the district known as Needham Upper Falls, upon petition of William E. Hurd and others.

Article 7. To see what action the town will take for the improvement of Kimball street, upon petition of William Eldridge and others.

Article 8. To see if the town will vote to install a platform scale at the town hall, and appropriate money therefor.

Article 9. To see what sum of money the town will appropriate for hydrant service and other public use of water.

Article 10. To see if the town will vote to authorize the treasurer, with the approval of the selectmen, to borrow such sums of money as may be necessary to carry out the above votes under this warrant.

Article 11. To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing

articles, and especially to act upon all appropriations asked for or proposed by the selectmen, or by any town officers or committees.

And you are directed to serve this warrant by posting attested copies thereof in not less than twenty public places in said town at least seven days before the time of said meeting; and also to leave a copy at each of the several dwelling-houses within the town.

Hereof fail not and make due return of this warrant with your doings thereon unto our town clerk on or before said day and hour.

Given under our hands at Needham aforesaid this thirtieth day of December, A. D. nineteen hundred and eight.

JOHN A. TILTON,
[SEAL] EDGAR H. BOWERS,
WILLIAM A. PROBERT,
Selectmen of Needham.

OFFICER'S RETURN

For repairs on Webster street, between Dedham avenue and South street, the sum of fifteen hundred dollars ($1,500).

Article 7. Voted, that the auditor cause the valuation list and the financial and other reports of town officers and committees, together with his own report on the same, to be printed and delivered to the selectmen for distribution as soon as possible after the first of January: and that the town clerk cause to be printed official copies of the proceedings of this meeting, one of which he shall send to each officer of the town within two weeks after the final adjournment of this meeting, and shall deliver one copy to any voter or taxpayer in the town who may apply for it, and shall furnish copies of the record of each and every town meeting held during the year for printing, so that it may be bound with the annual report of town officers.

Article 8. Voted, that notice and warning of all town meetings shall be given by posting properly attested copies of the warrant calling the same, in not less than twenty public places in the town, at least seven days before the time of holding said meetings: and that a copy of the town warrant, with the report of the town officers, be left at each dwelling house in town,—but the leaving of a copy as aforesaid shall constitute no part of the service of said warrant.

Article 9. Voted, that all poll and personal property taxes shall be payable on demand, and all other taxes on or before the first day of October. Interest at the rate of one-half of one per cent. a month shall be charged on all taxes not paid on or before the first day of November. The collector shall use the means provided by law for the collection of all taxes remaining unpaid after the first day of December.

(The above paragraph shall be printed on the tax bills).

The collector of taxes shall have the same power which the treasurer would have when acting as collector.

That the collector receive his compensation pro rata upon the collection of each fourth part of the full amount of the warrant.

If, in the judgment of the collector, in consequence of removal, or any other circumstance, any tax should be collected before the first of October, he is fully authorized to serve his warrant in the collection of such tax at any time. The collector shall guarantee the full amount of all taxes legally assessed and committed to him for collection and shall be held to pay the town treasurer the same, with any interest that may accrue thereon (except such sums as may be abated by the assessors); he shall pay the said taxes and interest from time to time, as he collects the same, and shall pay the full amount of all taxes committed to him, with the accrued interest, on or before the first day of April, 1910. The compensation of the collector shall be one per cent. on all taxes and interest collected by him and paid to the treasurer.

ARTICLE 10. Motion to accept lost.

ARTICLE 11. Voted that the sum of one thousand dollars be appropriated for the purpose of grading the Eliot School grounds, this amount to be taken from the money received from the sale of the electric light plant, and to be expended under the direction of the school committee.

ARTICLE 12. Dismissed.

ARTICLE 13. No action taken.

ARTICLE 14. Motion under this article lost.

ARTICLE 15. Voted that Rosemary Hill street as laid out by the selectmen under provisions of chapter 50 of the Revised Laws be accepted.

Article 16. Voted that Cleveland road as laid out by the selectmen under provisions of chapter 50 of the Revised Laws be accepted.

Article 17. Dismissed.

Article 18. Voted, that the subject matter of this article be referred to the selectmen with instructions to see that the man is kept busy with town work in the vicinity of the engine house of Hose 2.

Article 19. Voted, that the sum of five hundred dollars ($500) be appropriated for the extension of fire alarm by the installation of four new boxes.

Auditor's Report

March 10, 1909

I herewith submit my report for the year 1908:

In making my examination of the books of Chas. E. Stanwood, town treasurer, all additions on his books have been verified; all vouchers examined and compared with the books; all interest paid for temporary loans figured and found correct; all coupon payments verified, and matured bonds examined and found to be correct as to amounts; all endorsements on checks examined, and all checks compared with stubs in check books and found to be correctly drawn; the three bank accounts proved each month and bank balances verified: The Dwight School fund examined and found to be correct, and the bonds composing the same found to be in the custody of the treasurer. All receipts for water compared with the books of the water commissioners' office, and found to be correct; all payments made during the year having proper vouchers for the same, and all bills properly receipted.

The books of John L. Twigg, collector of taxes, have been examined for the year 1908, all additions verified, rebates figured, and balances of uncollected taxes found to be as stated in his report. All payments made to the town treasurer during the year, verified by the treasurer's books, and proper receipts for same on file.

Notices have been forwarded from this office to over six hundred persons whose taxes were found to be unpaid at the date of examination of the collector's books.

The auditor acknowledges the hearty co-operation of the various departments in getting out their reports, and thus enabling him to have the Town Report ready for distribution in season for town meeting, the Report this year being printed in Boston at a saving to the town of over one hundred dollars.

W. F. SNOW,
Auditor.

Record of State Election

NOVEMBER 2, A. D. 1909.

In pursuance of the foregoing warrant, the inhabitants of the town of Needham, qualified to vote in state elections, met in the town hall, on Tuesday, the second day of November, in the year one thousand nine hundred and nine, at six o'clock in the forenoon, and were called to order by William A. Probert, chairman of the board of selectmen, who read the warrant for calling said meeting, and the return of the officer who notified and warned the inhabitants.

The selectmen having previously appointed James Ford, S. Frank Quinlan, Charles W. Jones and William G. Gilfoil to act as ballot clerks, they were sworn to the faithful discharge of their duties by the town clerk.

The package containing the first set of ballots received from the secretary of the commonwealth, was then delivered to them and their receipt taken therefor.

Cards of instructions and specimen ballots were then posted as required by Sec. 248 of Chap. 560 of the Acts of 1907.

John Walker, Dana L. Southworth, John J. Warren, Luke W. Keith, William G. Courtenay, Harley E. Crisp, Arthur E. Foster and Thomas J. Falvey having been appointed by the selectmen to act as tellers, were sworn to the faithful discharge of their duties by the town clerk.

The ballot-box furnished by the commonwealth for use at elections, was then publicly opened and shown to be empty. The box was locked and the key given to John W. Crisp, the officer in attendance.

The polls were opened for the reception of ballots at five minutes past six in the forenoon and were kept open until thirty-seven minutes past four o'clock in the afternoon, when it was voted to close the polls.

At the opening of the polls the ballot-box register stood at 000.

During the voting the ballot-box was opened by unanimous consent of the selectmen and town clerk, and five hundred ballots were taken therefrom.

At the close of the polls the ballot-box register stood at 538. As the ballots were taken from the box they were andibly counted by the presiding election officer and announced as five hundred and thirty-eight. The names on the list of voters used at the ballot-box, which had been checked, were counted, and the number found to be five hundred and thirty-eight, which agreed with the number of names checked on the list kept by the ballot clerks.

A canvass of all the votes given in was made by the election officers, as required by Chap. 560 of Acts of 1907.

Upon completion of the convass, all the ballots cast were sorted, counted and recorded, and public announcement thereof was made by the chairman of the selectmen in open meeting, and was as follows, viz:

NOTICE

The attention of parents is called to the law relating to the registering of births. The present requirements are as follows:

Chap. 29, Sec. 6, of the Revised Laws. Parents, within forty days after the birth of a child . . . shall cause notice thereof to be given to the clerk of the town or city in which such child is born.

Sec. 8. A parent . . . who neglects so to do, for ten days after the time limited therefor, . . . shall forfeit not more than five dollars for each offence.

Attention of physicians and midwives is called to Chapter 19, Sec. 3, Revised Laws.

In accordance with the provisions of the law, the town clerk is prepared to furnish to parents, physicians, and midwives, applying therefor, blanks for return of births as required by law.

During the years 1908 and 1909 the sum of $1,202.09 was expended by the trustees for making a complete and up-to-date card catalogue, and for printing a catalogue for the use of the public, which latter was ready for distribution in July, 1909. For some years Miss Mary E. Glancy has shown much interest in obtaining books for her pupils, and has attended to the transportation of juvenile literature to the Harris School, but this Autumn, Mr. Thomas J. Crossman offered to take books from the town hall to the school, and return them, without any expense to the town; a worthy example of public spirit.

Through the kindness of Miss Alice H. Eberhardt, principal of the Eliot School, the trustees were able to arrange for the circulation of the books among the children of that school, and the first lot was sent there on March 23d. This has been continued to the present time, and on September 28th a delivery station was established at the store of Mrs. Margaret F. McDonald, at Needham Upper Falls. Books are sent there each week, which is evidently a convenience to the residents of that portion of the town, as the opportunities thus afforded are availed of extensively. Miss Ethel McDonald acts as assistant librarian at this station.

The report of Miss Ella R. McDowell, the librarian, shows

a large increase in the general circulation of books and magazines during the past year, and the record of the library in the town hall indicates the importance of having libraries accessible.

Mr. George Fellows Bean of Grove Street died April 14, 1909, without having carried into effect his intention of presenting a considerable number of volumes to the Town of Needham, but several hundred books have already been received from Miss Helen M. Bean, his sister and executrix. Mr. Bean appreciated good literature, and acquired a valuable library, expending hundreds of dollars. The trustees have had an attractive book plate prepared to perpetuate his memory as that of a generous donor.

In our last annual report we referred to a bronze tablet inscribed with a portion of President Lincoln's immortal Gettysburg Address, which tablet Mr. William Carter proposed to present to the library. It was duly received, and occupies a conspicuous place in the library building at Needham Heights. The people of our town are accustomed to receive gifts from Mr. Carter, and comments upon his liberality seem unnecessary.

For Miss McDowell the trustees have only words of praise, as she is rapidly developing into a skilled librarian, possessing judgment together with knowledge of correct methods, promptness and industry.

The cost of the catalogue has limited our means for purchasing books during two years, but the trustees have without delay obtained all books specially asked for, and have bought small lots of recent publications from time to time.

Respectfully submitted for the Trustees,

GEORGE K. CLARKE, Chairman.

Report of the School Committee

The School Committee again present their report to the town, showing the financial items and the tables of attendance and enrollment in the school department, which show an increase both in maintenance and numbers. The people of Needham have always insisted on having good schools and a lively interest is manifest at all times in this, the most important of the town departments.

The committee have worked harmoniously for what they have deemed to be the best interests of the scholars as a whole. The committee feel the responsibility of their position, a responsibility brought home to them on every hand by the seriousness of the perplexing problems of directing the school work so that all may be dealt with fairly and that each scholar shall receive what he or she is entitled to receive. To train and develop children so that they shall become good citizens, good men and women, is the most important calling in which anyone can engage. The committee strive to impress this truth upon the teachers, and we are pleased to report that with but one or two exceptions the committee and superintendent have been loyally supported by a corps of teachers who give evidence of earnestly striving to meet the exacting duties of their calling. The school spirit, taken as a whole, is excellent.

The community has fortunately escaped all epidemics during the year of 1909, so that the average attendance has been good, and a feeling of satisfaction with the progress of the work prevails.

The new rules and regulations are working well, and are becoming better understood. The tendency of the times is toward a large range of subjects, and this may be desirable where the size of the schools and the necessary money permit of it, but Needham must be content to keep within moderate bounds. The restriction of electives in the High School has resulted in better classes, and the committee feel it will prove to be to the advantage of the scholars.

The qualifications demanded by the business community as well as by the college authorities are becoming more exacting every year. To meet the advanced requirements it is necessary for the scholars to do more and harder work. The committee desire to impress this fact upon the parents and ask their hearty co-operation along the line of encouraging their children to do better work and the importance of it in relation to their future well being. The schools are for your children and the committee desire and expect your aid and encouragement. We invite your confidence and stand ready to do all that is within our power to improve our schools.

The school buildings are generally in good condition. It will be necessary to shingle the Dwight School this summer, and some repairs are needed at the Parker School. The interior of the Harris School should be brightened up. The total for these will not be a large amount. The committee estimate the amount necessary to carry on the department for the year 1910 at $33,000, of which amount $7,000 was appropriated in January, leaving $26,000 to be appropriated at the March meeting, to which is to be added the income from the Dwight School Fund and the amount received for tuition for out of town pupils.

Respectfully submitted,

WILLIAM G. MOSELEY.
ADELINE E. HARRIS.
HORACE A. CARTER.

Report of the Superintendent

To the School Committee of Needham:

I herewith submit to you my third annual report of the public schools:

An enterprise is most successful when its affairs are so conducted that there is no great demonstration in obtaining results; any machine is working best when all its parts are running with the least possible friction and noise. So it is with the school system which is at its best when the control and management are such that the work goes along without interruption, with little friction and with the best of feeling, and the results are obtained without any extraordinary features to make the progress seem unusual.

Thus it has been this year in most of our schools, especially in the High, Avery and Kimball, where the parts of the "machine" are greatest in number and where most excellent spirit has been shown, that marked progress has been made along many lines, and consequently we all feel that the year has meant much.

Changes in the Teaching Force.

Needham offers such a good field for advancement to larger towns and cities that teachers farther away from Boston are inclined to seek positions here; but while it gives us a high grade of teachers, it does not insure keeping them as long as we would desire.

Thus, in the past year, we have lost many teachers from our force, and while the losses were felt at the time to be severe, I am certain that in their successors we have many worthy teachers from whose work I anticipate the very best of results. The statistics will show a total of eighteen new teachers taking up work during the year, two of these being additional to last year's total.

In the Eliot School one new teacher, Miss Maud L. Parker, was installed. By the new arrangement, grade one is in a room by itself, and grades two and three, four and five, and six, seven and eight, occupy the other three rooms. In this way much better work has been accomplished.

It was deemed necessary to have two teachers in grade one at the Avery School, and so Miss Edith L. Shorrock was appointed and occupies with her division of this grade, a separate room.

As there was no decrease in numbers at the Dwight School, Miss MacKenzie was retained as assistant in the upper room.

A seemingly permanent growth in the Greendale district has resulted in an exceptionally large enrollment in the Harris School. The outlook is that in the near future we shall need some additional arrangement, inasmuch as the room now occupied is taxed about to its limit for accommodations.

The High School Course of Study.

A remodelling of the courses of study in our High School was deemed necessary and the good results thus far obtained have justified this action. The courses are now printed in full, giving the subjects chronologically throughout the entire four years. Under the general course which is taken by the majority of pupils in the school, extra studies are included for those wishing to prepare for college. A suggestive five-year course is also included. This

is a course which is being demanded more and more throughout the state.

A paragraph has been inserted among the notes along with the courses, which calls particular attention to a phase of High School work that escapes the attention of most parents. Again, in this report, I would repeat what that paragraph says, that it is a decided discredit for a pupil to get "just passing" and we shall encourage a pupil to get the highest possible percents. I wish that the parents would all of them co-operate with the teachers in creating some incentive for hard, conscientious work, and thus minimize the amount of laziness and lack of concentration.

Repairs, Etc.

Very little has been done in the way of repairs except where it was absolutely necessary.

The flag platform at the Dwight School, and the flagpole at the Parker School have been put in first-class condition.

The tanks in the Kimball School basement have had to be renewed, as have the conductors on the outside of the same building.

The annual visit of the State Inspector of boilers to the various buildings showed that very little had to be done, and the expense has been confined to repacking valves, replacing two or three plates, etc. It is gratifying to have the heating apparatus of the various buildings in such good condition.

I would call the attention of the committee to the urgent need of shingling the Dwight School and retinning the roof of the ell of the Parker School. At the Kimball School the floor in the lower corridor needs attention, and I would recommend that it be replaced together with part of the flooring and steps of the two piazzas.

At the old Avery grounds there ought to be a number of loads of gravel placed around the foundations of the build-

ing and also some more so as to raise the driveway to the street. In winter pools of water cause much inconvenience to pupils and teachers alike.

Medical Inspection.

The work of medical inspection has gone along with conscientious and thorough labor on the part of the school physicians, nearly two hundred visits being made in all to the various schools.

In addition to what has been done in the past, teeth, nose and throat examinations have been made and recommendations sent to the parents as to care and treatment.

People do not realize as they should that proper care of the first teeth means a great deal to the physical welfare of the child in regard to the second, or permanent, teeth. In connection with the examination of the teeth, it was noted that the number of children with defective teeth grows proportionately less as the higher grades are reached. The following statistics from one building will illustrate:

Grade.	No. Pupils Examined.	No. with Defective Teeth.
IV	31	25
VII	32	17
IX	40	15

The proportion of the children whose breathing was affected by adenoids and enlarged tonsils, is relatively small. The greatest number was found in the intermediate grades, in one room, seven out of twenty-nine being affected. Parents should not judge this trouble to lack seriousness simply because few are affected.

Eye and ear tests, with notice of defects sent to parents, now have a fixed and very important place in our schools, and much benefit to children is derived therefrom. This year has been no exception to the rule.

I would again repeat my statement of last year that so much is done under "medical inspection" that it is hard to realize how much illness has been avoided by the vigilance of the school physicians.

School Attendance.

The average attendance in all the schools shows an increase, and it is encouraging to note that there are fewer cases of tardiness and absence without good excuse. The Harris School—a school where all grades are included and many of the children have long and hard roads to travel—had an average attendance of over 97 per cent. for the year. Surely this is a fine example! I am very much pleased at the efforts of those children to get to school on days when the weather conditions were far from encouraging, and at the enthusiasm of the teacher in keeping up the interest all had in making such an enviable record. Let us hope that next year more schools can be reported as enjoying high averages.

Music and Drawing.

Needham is showing far more interest than ever in the work in music. This is because the usual standard of excellence has been maintained in this line of work during the entire year, under the supervision of the same instructor, Miss Bartlett.

The parents were especially expressive of their appreciation of the work in music after the graduating exercises of last June. Results that bring forth such expressions can be obtained only by the most painstaking and conscientious work on the part of both teacher and pupils.

The one great aim for the average child is to be able to sing with comprehension, and to become so familiar with the splendid works of the best composers as to keenly enjoy them.

The work in drawing has gone on along the same lines as last year. Nothing out of the ordinary has been accomplished and there is little to say beyond the fact that results have been very fair. This is no doubt due to hard work on the part of the individual teachers, many of whom are taking courses in manual training in Boston for the purpose of

making themselves more competent and able to carry out the wishes of the drawing supervisor.

Conclusion.

In closing this report, I feel that I must express my thanks to all for the good will and cordial support given the Needham schools by the people of the town. Parents, by their example of hearty co-operation, have made the work easier and more pleasant for the teachers; the teachers by their efforts have solved the petty problems that annoy and often cause unpleasantness between parent and teacher; the pupils by their diligence, have made marked progress; friends of the schools have encouraged us all—teachers, school authorities, pupils and parents—by a kind word here and there; and all in all the schools have had and appreciated a good season of educational advancement.

Respectfully submitted,

WALTER K. PUTNEY,

Superintendent of Schools.

Report of Board of Selectmen and Overseers of the Poor for the Year 1909

Fellow Citizens:—We herewith submit our report for the year 1909 together with our recommendations for the current year.

Highways and Bridges.

In connection with our report on Highways and Bridges we would urge upon the citizens a careful perusal of the report of the Superintendent of Streets to be found on another page.

Dedham Avenue Bridge:—In response to a petition of the Selectmen of Needham and Dedham several hearings were given by the Board of County Commissioners as a result of which a decree was issued ordering the construction of a two arch concrete bridge under plans submitted by B. T. Wheeler, C. E., over the Charles River in place of the old Dedham Ave. iron bridge which had become unsafe for public travel. Work on the bridge was commenced late in the Fall of 1909. The structure will be completed early in the Spring of 1910, at an approximate cost of $20,000.00. The cost of this work will be apportioned between the County of Norfolk and the towns of Needham and Dedham as the County Commissioners may direct.

Highways:—The condition of our highways is in the main satisfactory. In our opinion considerable work should be done upon Highland Ave., Dedham Ave., Great

Plain Ave., and Central Ave., during the coming season, in order that these main arteries of travel may be kept up to the standard demanded by our citizens.

The opening of several new streets indicates a healthy growth in our town, and, while a matter for congratulation, will call for careful consideration in the near future.

Fair Oaks Park:—In accordance with a vote of the town passed Oct. 19, 1908, the selectmen have built Fair Oaks Park under the provisions of the Betterment Law. The total cost of this work was as follows: Streets, $1406.70. Sidewalks, $1132.20. Of these amounts, abutting property holders were assessed $1000.00 as betterments and one half the sidewalk cost.

Care of Streets:—In the construction and care of streets various preparations of oil and asphalt have been used with gratifying results. This method of caring for highways is becoming almost universally prevalent and your Board of Selectmen recommend its continued use during the coming summer. The almost complete elimination of dust on the streets where these preparations have been used, we believe has been conducive to an increased measure of public health, in addition to doing away with a disagreeable dust nuisance and making better roads for all forms of vehicles.

Sidewalks:—The majority of sidewalks are in satisfactory condition. Several applications for granolithic walks have been received during the past year. Lack of funds has prevented this form of construction in a large measure. If the citizens desire this kind of sidewalks to any great extent in the future more liberal appropriations must be made, as the expense per square yard for granolithic construction is about double that of tar concrete.

Gravel Supply:—The lack of available gravel for general street repairs is becoming a serious question and one for which immediate provisions should be made. We recommend that an appropriation be made for this purpose.

Drainage:—The necessity of draining Needham Square and the approaches thereto has become more apparent each succeeding Winter and after every severe storm. During the year just closed a drain with necessary catch basins has been constructed of sufficient dimensions to meet all present requirements, with liberal provision for the future. The Board of Selectmen believes it a wise policy to gradually extend this system as outlined in the engineer's plans. This can be done out of the regular appropriations for streets. The removal of surface water should materially lessen the cost of street repairs in the sections drained.

Fire Alarm.

The efficiency of the fire alarm service has been greatly improved during the past year. We believe the system to be in dependable condition, and, until such time as the town deems it wise to install a repeater, equal to any demands that can reasonably be made upon it.

Gypsy Moth and Elm Tree Beetle.

The preservation of our shade trees, orchards and shrubs is a matter of prime importance.

Liberal appropriations made by the town and state for this work have enabled the local superintendent to control in a measure the destruction wrought by these pests.

All lovers of trees should carefully read Mr. Riley's report and co-operate with him in this necessary work.

Fire Department.

The fire department is in excellent condition and merits the confidence of the citizens. The reconstruction of the Hook & Ladder truck should add materially to the efficiency of the department. The freedom from serious fires during the past Winter is a matter for congratulation.

Police

The general character of our community is such as to call for commendation. No serious crimes have been committed during the past year. As compared with neighboring towns the amount appropriated for police protection in Needham is comparatively small. The proposed town by-laws should assist the work of this department and make for even greater harmony in our community.

Care and Support of the Poor.

No exceptional demands for relief have been made upon the Overseers of the Poor. To such as have been unfortunate enough to require assistance, the same has been readily granted. The expenditures in this department have been kept well within the appropriation.

Town Auditor.

On August first, last, Mr. Walter F. Snow, who had acceptably filled the position of town auditor for more than a year, felt compelled to resign on account of the pressure of other business. Your board has been fortunate in securing the services of Mr. Arthur E. Smith, a gentleman well fitted by inclination and business training, to fill this responsible position.

In the opinion of this board the salary paid the town auditor is not at all commensurate with the services performed, and we recommend that it be increased.

Respectfully submitted,

WILLIAM A. PROBERT,
JOHN A. TILTON,
HENRY T. CHILDS,

Selectmen of Needham.

Report of Superintendent of Streets

To the Honorable Board of Selectmen:

Gentlemen: I submit the following report of the Street Department for the year ending December 31, 1909.

Special attention has been given this season to the surface of our macadam streets, and an effort made to protect them from the excessive wear caused by self-propelled vehicles.

Several preparations have been used with considerable success in protecting the surface and in preventing the dust nuisance.

The state paid, practically one-half the cost of surfacing the State Highway on Chestnut street and on Highland avenue.

About the same surface was covered with these preparations as the area sprinkled with water last season.

On two and one-half miles of road, Tarvia B was used. It completely protected the surface from wear for the season and kept the dust from forming; 22,000 yards were covered at a cost of about 2½ cents per yard.

Six miles of streets were sprinkled with Terracolio. This is an asphaltic preparation to which water is added making an emulsion which is applied through the sprinkling cart. Two applications were given about a month apart and another should have been given to have gotten the best results; but it laid the dust very well, and to a slight degree preserved the road surface. Asphaltoil, which was

used on Highland avenue (State Road), is an oil containing more than 70 per cent. of asphalt, and was applied hot to the cleaned surface of the road, covered with fine screened gravel and rolled with the steam roller, making a wearing coat about an inch in thickness, which should last for at least two years, completely protecting the road from wear and the surface is practically dustless. The cost was 6½ cents per yard. Complaint has been made by the teamsters that this surface is slippery for horses.

Highland Avenue.

Highland avenue between West street and Mellen street was macadamized and tar was used to bind the stones. No. 1 and 2 crushed stone was spread and rolled until ready for the binder; hot tar which was brought from Everett in tank wagon was sprayed on the surface, penetrating between the stones. This was covered with a light coat of fine stone from which the dust had been screened and rolled with the steam roller. The cost of the macadam was $285.00, the tar cost $80.00.

Fair Oaks Park.

This street which was partially constructed last year was completed. Granolithic walks were built on both sides of the street, the macadam was finished and rolled and the borders and the grass plot between the roadways were graded and seeded. The cost of the street was $1,153.90. The sidewalk and borders cost $1,385.00.

Hillside avenue, from West street to Rosemary street, was reconstructed; pit stone and gravel from Cornwalls bank was used. A sidewalk was constructed on the west side of the street, and 800 feet of guard railing built.

Highland avenue from Rosemary street to the car barn, which was badly worn, was brought up to grade with small pit stones and surfaced with gravel from Cornwall's pit.

Central avenue, from Reservoir street to the Newton line,

was surfaced with gravel from Cornwall's pit.

Webster street near the R. R. bridge was repaired with gravel from Tilton's pit.

South street, east of Webster street, was repaired with gravel from Tilton's pit.

Sidewalks.

A tar concrete sidewalk was laid on Great Plain avenue, from Maple street to the railroad crossing.

Gravel walks were constructed on the west side of Hillside avenue, on the east side of Chestnut street, on Garden street, and on Warren street, south of Kimball street, considerable resurfacing was done.

DRAINAGE.

The drainage of that section of Needham village east of the centre, a serious problem, has been partially cared for by a drain discharging in the brook on Warren street. A main drain, 15 inches in diameter, was laid down Warrren street, from Dedham avenue to the brook. Connecting with this, a 12-inch pipe was laid in Dedham avenue, to the junction of Highland avenue and Great Plain avenue. Another branch was laid through School street and Dedham avenue to the corner of Pleasant street. Shorter branches extend across Dedham avenue to the corners of Warren street and at Grant street. In all, 3400 ft. of drain pipe was laid.

Twenty-three catch basins are placed along this pipe line at necessary points, 15 new ones built of brick, and 8 old ones, which were repaired and put in good shape. This drain can be extended and take in a larger area when desired. The total cost of the job was:

Materials,	$848 00
Labor,	857 50
Total cost,	$1,705 50

Fences and Bridges.

Two thousand feet of fence was built this year. The bridges have cost nothing this season, except for a few minor repairs.

The following sums have been spent on the streets for teams and labor:

Central avenue,	$ 159 50
Hillside avenue,	368 50
Highland avenue, macadam,	285 00
Highland avenue, Dewing's Hill,	226 50

Report of Tree Warden

On account of the serious damage threatened by the elm leaf beetle, it was decided to spray our elms, even if no other tree warden work could be done during the season of 1909.

This was accordingly done, and the improved condition of the trees was very evident.

The expense of the spraying being over six hundred dollars, there was but little available for other uses, especially as it is desirable to reserve a small amount up to the end of the year, to be used in case of emergency, such as the breaking down of branches during storms.

There are many dangers to which public shade trees are exposed which I wish briefly to touch upon. The most important of these are the wires used in conveying electricity, the cutting of roots in excavating for sidewalks and pipe lines, the gnawing of the bark by horses.

Of the wires the least injurious are the fire alarm and telephone wires which injure by chafing and the trimming out of branches to avoid loss of power.

In the case of high tension wires, such as those used by the electric lighting and electric railway companies, there are added to these the danger of burning branches, and, in some cases, the actual electrocution of the tree.

While in many cases the proprietors of these wires regard a tree simply as an obstacle to be overcome as easily as possible, it must be remembered that they have some rights conferred in the location of poles, etc. If our citizens desire

the service rendered by these companies, they must expect to make some sacrifice.

There are only two ways of avoiding the wire nuisance entirely, one by placing the wires under ground, the other by running them over private property, and the practicability of either of these is not for an inexperienced person to decide.

Taking the case as it stands, our sole course is to allow only as much trimming as is absolutely necessary, and to insulate the wires so as to avoid burning. This latter is not always possible, as wires of high voltage are not easily insulated, and in the event of an insulator cracking (as sometimes happens) serious burning may result.

The injury to trees caused by cutting roots in laying pipes and digging out sidewalks is occasionally very great, and while sometimes unavoidable, can in many cases be avoided by using a little care.

The injury caused by horses, while always a matter of accident, could usually be prevented by ordinary thoughtfulness on the part of their drivers. From this cause the smaller trees are the chief sufferers.

There is much room for improvement in the condition of our shade trees, but with the money available, it is possible to do but a little each year.

All of our large trees and many of the smaller ones need a thorough pruning for the removal of dead and diseased branches, which are a menace to the health of the trees, and, in some cases, to the safety of the public.

Some of our sidewalks are nearly impassable because of low branches. A shade tree which interferes with the use of a sidewalk or highway is not fulfilling its mission, which is to make travel more enjoyable, not to impede it.

There are many trees in which decay has started from the breaking or cutting off of large branches. Cases of this kind can result only in great injury or death to the tree unless something is done to prevent it. In many instances

trees have been planted much too closely, which can only be remedied by removing the poorer specimens which can never be anything but an injury to their neighbors. It is much more economical to care for one tree in good condition than for several diseased ones.

There has been some criticism of the spraying in regard to the sprinkling of passers by, and the danger of poisoning, both to human beings and animals. While some of this criticism is perhaps justified, we feel that much of it is due to a misunderstanding of the conditions which govern the work.

This work must all be done during a period of five or six weeks, and can be done only in fair, dry weather. It is, therefore, hardly possible to spray the trees in front of one man's house when the wind is east, and of his neighbor's when it is west or north or south, as each may desire.

Passersby should remember that the man in the tree must constantly watch the part he is spraying, and cannot tell where the spray goes after it leaves the tree. Also that the man in charge of this work has all he can possibly attend to, and should be pardoned if he sometimes fails to warn passersby. Besides this, the spray is sometimes carried long distances by the wind, a condition which it is impossible to avoid.

Danger of poisoning from the use of the spray as applied in this work is hardly possible.

While arsenate of lead is a strong poison and must be used with care, it is used for this purpose in so dilute a form that the danger to animals is very slight. I have known of cows and horses being allowed to graze directly under heavily sprayed trees, but have never heard of any ill effects. While this practice, and the use of hay from under sprayed trees is not to be recommended, the use of arsenate of lead as a spray is certainly not as dangerous as is commonly supposed.

As to the poisoning of birds, I know of no case in Needham

where the death of a bird has been traced to spraying, but do know of at least one case where a brood of orioles (which feed entirely on insects) were reared in a tree which was heavily sprayed about a week before they left the nest.

Respectfully submitted,

E. E. RILEY,

Tree Warden.

Report of Forest Warden

Needham, Mass., Dec. 31, 1909.

To the Honorable Board of Selectmen:

Gentlemen: This being a new office for this town, the principal duties of which are to prevent the unlawful setting of fires in the open air anywhere within the town limits, and to prevent the spread of forest fires, there is very little to report on the work.

In the month of March notices calling attention to the fire laws were published in the Needham Chronicle, in accordance with the statutes.

There have been issued from this office two hundred and eighty-four permits to burn rubbish, etc.

I wish to call the attention of the residents of the town to Chapter 209, Section 1, of the Acts of 1908, which is as follows, and is to be strictly enforced: "In a town which accepts the provisions of this Act, or has accepted a corresponding provision of earlier laws, no fires shall be set in the open air between the first day of April and the first day of December, except by the written permission of the Forest Warden, provided that debris from the field, gardens and orchards, or leaves and brush from yards may be burned on plowed fields by the owners thereof, their agents or lessees, but in every case such fire shall be at least two hundred feet distant from any forest or sprout-land, and shall be properly attended until it is extinguished. The Forest Warden shall

cause public notice to be given of the provisions of this Section, and shall enforce the same. Whoever violates the provisions of this Section shall be punished by a fine of not more than one hundred dollars, or by imprisonment for not more than one month, or by both such fine and imprisonment."

As the town has accepted the provisions of this Act, it is hoped that this will prevent the careless setting of brush fires, and that the people will endeavor to co-operate with the Forest Warden in the enforcement of these laws, which are for the best good of all.

As there is considerable work and expense connected with this office, I would recommend that an appropriation be made for the same.

Respectfully submitted,

H. H. UPHAM,

Forest Warden.

Report of the Superintendent for Suppressing Gypsy and Brown-Tail Moths

To the Honorable Board of Selectmen:

Gentlemen:—I herewith submit the report of the moth department for the year ending December 31, 1909. The moth work for the past year differs only in a few details from that of previous years, so that a report of the whole routine would be but a needless repetition of previous reports.

During the month of May a burning outfit was obtained and several badly infested walls were burned out, apparently with perfect success, as very few caterpillers of the gypsy moth were found there during the summer.

The large power sprayer furnished us by the state was brought into use during the latter part of May and the spraying was continued until about the first of July. During this time about twelve hundred street elms were sprayed for the elm leaf beetle, and over one thousand street trees of all varieties for the gypsy moth, besides low growth along roadsides and brush patches and small woodlots on private property.

Owing to the shortness of the spraying season and to the fact that during this season it was necessary to devote our whole attention to spraying, the turning of the burlaps was delayed so that in some instances it was possible to turn them only once.

This condition, while unavoidable, was rather unfortunate, and we hope, another season, to arrange the work so that there will be no such delay.

Spraying is by far the most economical way of handling the gypsy moth under certain conditions.

A most unpleasant and discouraging feature of the moth work is the hostile attitude of many property owners. It seems strange that so many fail to realize the danger that threatens us when, within a very few miles of Needham, many acres of woodland were entirely stripped of foliage during last June and July. The damage caused by the elm leaf beetle in Needham during the last few years has been plainly evident to all, but the ravages of the gypsy moth would be much more evident, and much more serious than those of the beetle, were it not for the work of this department in the last four years.

This is not simply conjecture, but is based on what is known of the habits of the gypsy moth, and what it has done in places where it has become thoroughly established, and is still doing where nothing has been done to suppress it.

In some instances, even where the work has been done with the best intentions by property owners, it has amounted to nothing simply because they have failed to inform themselves and have worked without knowing what they were doing or why they were doing it.

There is absolutely no reason for this, as information concerning the best methods of working will at all times be cheerfully given.

We have some reason to feel encouraged by the fact that the United States Government experts in charge of the parasite breeding and distribution are having great success in some instances, which, if continued, may mean much relief after a few years.

This is a condition earnestly to be hoped for, as while human efforts are successful in the residential districts and along roadsides, they would avail little in large forest infestations unless aided by some natural cause.

Respectfully submitted,

E. E. RILEY,

Local Superintendent of Moth Work.

Report of Superintendent of Fire Alarm

January 22, 1910.

To the Honorable Board of Selectmen:

Gentlemen:—I hand you herewith report of the Fire Alarm System for the year ending 1909.

Last year about eight miles of the Fire Alarm system was rebuilt, besides the necessary repairs. At Charles River, the bell on the school house would not strike more than 150 blows. The weight which operated this striker was a box of stones, weighing about 250 lbs., and was falling to pieces. This has been replaced with a 400-lb. iron weight, made in sections to travel in a runway built for it. The bell will now strike three alarms of the longest box, and about 50 extra blows, and can be heard a greater distance.

Three new tappers have been installed, one in Charles River, one in Greendale and one in Needham.

The Needham Heights circuit has been changed over, and now consists of two circuits, as one circuit was not enough to cover so much territory.

There are five circuits in the system now, but in operation consists of one large circuit only. I would recommend the installation of a six-circuit automatic repeater, which will protect balance of sections of the town in case one or more sections became disabled, and it also would allow for an extra circuit to be added in the future.

There are about 20 miles of bare wire yet which should be replaced with insulated wire.

Several new boxes should be added to the system. The one most needed is at the corner of Webster and May streets, as that locality is building up very fast.

The following is a list of material and tools on hand, worth approximately $250.00.

About three miles of No. 8 triple braid wire;

About 30 cross arms, glass insulators, pins braces, lag and carriage bolts, etc.;

One cask of sulphuric acid, also necessary tools for maintenance of lines, switch board and battery room;

Twenty-five battery elements, besides battery jars.

Respectfully submitted,

WILLARD B. COOKSON,

Superintendent of Fire Alarm.

Report of Inspector of Wires

February 3, 1910.

To the Honorable Board of Selectmen:

Gentlemen:—

The condition of the electric wires has been greatly improved in the year 1909 owing to change of policy by the large corporations operating in the town. Heretofore the Telephone Company has run its wires most any way to get them in use. They would use pin brackets on poles for a twisted pair of wires and often put two pairs on one bracket. This kind of construction was dangerous to the linemen and more than one man coming down has been tripped by these pins and thrown from the pole. They were advised to use cross-arms but they wanted to compromise and use arms only in thickly settled districts and pin brackets on back streets. I refused to countenance this, and they are using cross-arms every where now, and find it cheaper to do good work and keep their lines up in shape, instead of letting them go till they have to rebuild whole sections.

The Electric Railway Companies have rebuilt a large portion of their lines and their maintenance departments see that their interests are well cared for.

The Edison Electric Company do their work well and keep their plant in good shape all the time.

It is the intention of several of the larger companies to

combine and build one pole line on streets where two or more poles stand near together and place all these wires on one pole. This will greatly improve the appearance of our streets and the cost of maintenance will be less for each company.

In regard to the inside electric wires, the Underwriters' Rules are carefully followed, and the quality of the work installed has steadily improved.

Respectfully submitted,

WILLARD B. COOKSON,

Inspector of Wires.

Report of the Fire Department

Fire Department Headquarters,
Needham, Mass., Dec. 31, 1909.

To the Honorable Board of Selectmen:

Gentlemen:—I herewith submit the twenty-fourth annual report of the Needham Fire Department.

There have been forty-two alarms for fire during the past year, viz:—twenty-six bell alarms and sixteen still alarms. Twelve of these were for fires in buildings and the balance for woods and grass fires.

The following table shows the origin and the number of fires caused by each so far as known:

Sparks from locomotive	11
Burning rubbish	4
Incendiary	7
Gypsy moth workers	1
Chimney	2
Oil stove	2
Children and matches	1

By a law recently enacted a railroad is liable for the expense in extinguishing fires caused by their locomotives, as well as the damage, and there are now several claims pending.

The seemingly increasing number of needless alarms for woods and grass fires and the expense to the town caused by the same, is worthy of consideration by the citizens. When a little effort on the part of an individual can pre-

vent an alarm, and thereby save an expenditure of not less than twenty-five dollars, the first cost of pulling a box, the hasty action of calling the department is to be deplored.

The following figures may be interesting relative to the cost of fire service for the past year:

Average cost of horse hire per fire	$ 7 61
Average cost of service per fire	14 35
Average cost of horse hire per bell alarm	11 90
Average cost of service per bell alarm	17 75
Average cost of still alarm	8 41
Greatest expense caused by one fire	87 00
Least expense caused by one fire	1 00
Average monthly expense of maintaining the department, regardless of equipment and fires	90 00

The value of buildings and their contents in which fires occurred, the amount of insurance on same, and the loss and amount of insurance paid, is as per the following tabulated form:

Value of buildings insured	$20,400 00
Insurance on same	19,400 00
Damage to buildings	3,200 00
Insurance paid on buildings	3,496 00
Value of buildings uninsured	500 00
Damage to same	350 00
Value of contents insured	14,200 00
Insurance on same	5,450 00
Damage to same	1,183 00
Insurance paid	961 00
Value of contents uninsured	2,900 00
Damage to same	280 00

The amount of hose laid by the department during the year is 4000 feet; amount of chemicals used 313 gallons, and there were used 470 feet of ladders.

Total number of men in the department including the Board of Engineers, 53.

The several pieces of apparatus belonging to the department are in excellent condition.

The Hook and Ladder Truck, agreeably to the suggestion in my last report, has been wholly reconstructed, and although at considerable expense the town has now a thoroughly up-to-date truck and at half the cost of a new one.

Summary of Inventory.

Headquarters.

Station No. 1, land and buildings	$3,250 00
Combination Chemical and Hose Wagon and equipment	1,800 00
Hook and Ladder Truck and equipment	1,250 00
Hand Engine	100 00
Hand Reels (2)	10 00
Hose (1750 ft.)	875 00
Other appliances and fittings	780 00
	$8,065 00

Needham Heights District.

Station No. 2, land and buildings	$4,100 00
Combination Chemical and Hose Wagon and equipment	1,200 00
Hose (1900 ft.)	950 00
Other appliances and fittings	343 60
	$6,593 60

Charles River District.

Hose Wagon and equipment	$ 350 00
Hose (650 ft.)	325 00
Other appliances and fittings	51 70
	$726 70

Upper Falls District.

Hose Wagon and equipment	$325 00
Hose (500 ft.)	250 00

Other appliances and fittings	60 30
	$635 30

Greendale District.

Reel	$100 00
Hose (450 ft.)	225 00
	$325 00
Total	$16,345 60

As compared with the inventory of last year there is a loss of hose amounting to 600 ft. which is a serious menace to the efficiency of the department. In view of this and the fact that there has been no hose purchased for several years, it is necessary that an appropriation be made for that purpose this year.

I would repeat my recommendation of last year in regard to the extension of the fire alarm system. The increase in the number of new buildings in various localities necessitates the addition of several new boxes to the system.

The attention of the merchants should be called to the statute relative to the sale of explosives, viz.: Acts of 1908, Chapter 502, which requires a license from the Board of Selectmen, and a permit from the Chief of the Fire Department.

Respectfully submitted,

H. H. UPHAM,

Chief of Fire Department.

The need of active provision for future parks in our town is brought to our notice by the growth our town is making and by the example set us by other towns in our neighborhood.

It is wise for the town to provide for these parks before too great a valuation is set upon the land desired.

The Park Commissioners, seeing this need, recommend to the town that a small addition to the usual appropriation for parks be made, this to be used for the following purposes: For the making of a small park in the Upper Falls district, corner Central avenue and Reservoir street. Also small outlay on land owned by the town, between South street and Charles River, near the Pumping station.

The Commissioners also would suggest for parks a small triangle at Glover's Corner, upon which is a house, all of which belongs to the Glover Estate, thus adding greatly to the beauty as well as the valuation in the community.

Also a triangle at the corner of Nehoiden street and Central avenue. This is town property and simply awaits development.

The necessity of a playground is understood and generally accepted. It is desirable that some provision be made for this purpose in the near future.

We solicit the co-operation of the people in our town in the matter of parks and suggestions as to future parks would be gladly accepted.

WILLIAM LEE,
T. J. CROSSMAN,
CHAS. W. PEASE,
Park Commissioners.

Auditor's Report

NEEDHAM, February 21, 1910.

Your auditor has verified the accounts of the various town officers and finds them correct, and their records kept in a neat and business-like manner.

An entirely new system is being installed in the auditor's department, whereby complete interlocking accounts will be kept with all departments, the controlling accounts being kept in this office. This will necessitate the auditing of bank balances, and all department accounts each month instead of yearly as has been the custom.

It will also result in a balance sheet being taken from the auditor's books each month, with which all department accounts must balance.

All records are in shape so these changes may date back to January 1, 1910, although it will probably not be in full working order until April 1, 1910.

Respectfully submitted,

A. E. SMITH,

Auditor.

Office of Town Treasurer

To the Citizens and Taxpayers:

Many recent developments have shown that more safeguards must be furnished for the issue of municipal securities, especially for what is known as tax notes. An issue of bonds, generally carries with it special advice and consideration, and has seldom proved irregular. Tax notes are issued from time to time during the year, the authority is based on the vote at the annual-meeting, and the borrowing capacity, unless otherwise fixed, is the amount of the commitment from the assessors to the tax collector.

Special legislative enactments will probably be effected prior to the next annual town meeting, making it compulsory for all municipal notes to be registered; this will place in the hands of a disinterested party the record of all the authority with which the financial officer is endowed, and will undoubtedly, prove a great barrier against illegal issues.

Unless legislative action is taken, it will be necessary for the town to vote that all notes issued shall be registered by some reputable banking institution. While this action will not be an especial safeguard, it will be a reasonable one, and is made necessary in order to find a broader market for the sale of securities, many investors having already stated that no consideration will be given unless registered.

The tax commitment for 1909 was $103,703.83, and furnished the borrowing capacity.

The following notes were issued:

Date	When due	Amount	Interest
Feb. 10, 1909	Nov. 5, 1909	$ 6,000.00	
Feb. 10, 1909	Nov. 12, 1909	6,000.00	3.25%
Feb. 10, 1909	Nov. 19, 1909	6,000.00	
Mar. 18, 1909	Nov. 12, 1909	5,000.00	
Mar. 18, 1909	Nov. 19, 1909	5,000.00	3.12%
Mar. 18, 1909	Nov. 26, 1909	5,000.00	
Mar. 18, 1909	Dec. 3, 1909	5,000.00	
Mar. 18, 1909	Dec. 10, 1909	5,000.00	3.26%
Mar. 24, 1909	Mar. 24, 1910	10,000.00	
Mar. 24, 1909	Mar. 24, 1910	10,000.00	
Mar. 24, 1909	Mar. 24, 1910	10,000.00	3.50%
Mar. 24, 1909	Mar. 24, 1910	10,000.00	
Aug. 11, 1909	May 13, 1910	10,000.00	4.25%
Oct. 20, 1909	May 13, 1910	9,000.00	4.75%
		$102,000.00	

This amount is about $5,000.00 more than would have been necessary, except for temporary assistance needed by the Water Department.

Each note was paid on date due, making a total payment of notes issued in 1909 of $43,000.00, and of notes issued in 1908 of $43,500.00, and of special note issued in 1908 of $7,000.00.

The net cost to the town of this issue of notes was $2,630.88 and the appropriation made by the town was $2,500.00.

The total amount received during the year from the Collector of Taxes, and being on account for the years 1907, 1908 and 1909 was $96,074.99, of which amount $64,355.69 was received in November and December.

The town has outstanding bonds amounting to $313,000.00, of which amount the Commonwealth of Massachusetts owns, in registered form, $206,500.00.

Bonds maturing in 1910 amounting to $12,500.00 will be provided for an issue of 4 per cent. 30 year refunding bonds to the amount of $4,000.00, and $8,500.00 will come from the tax levy.

Bond Interest payments due in 1910 amounting to $12,385.00 will be taken care of from the earnings of the Water Department to the extent of $7,200.00, and $5,385.00 will come from the tax levy.

Respectfully submitted,

CHARLES E. STANWOOD,

Town Treasurer.

Twentieth Annual Report of the Water Commissioners

To the Inhabitants of the Town of Needham Massachusetts:

The Water Commissioners herewith submit their twentieth annual report for the year ending December 31, 1909.

At the annual town meeting in March, Mr. George H. Toone was re-elected water commissioner for a term of three years.

The board organized by electing Mr. Edmund G. Pond chairman, and appointing George A. Adams clerk.

EXTENSIONS.

The following extensions have been made under a 6 per cent. guarantee for ten years:

Brookline street, from Webster to the residence of Charles C. Keith.

Manning street, from Great Plain avenue to the residence of Ernest F. Hodgson.

Marked Tree Road, to the residence of H. M. Harding.

Washington avenue, from Great Plain avenue to the house owned by F. H. Page.

For distances see Superintendent's report.

A fire service has been installed at the factory of Roper Bros. & Co., consisting of 412 feet of 6-inch pipe, one 6-inch two-way hydrant in the factory yard, and a sprinkler sys-

tem within. The whole system being installed without cost to the town, as provided by the Rules and Regulations of the Water Department.

Protection of Water Supply.

In continuation of our policy of protecting the water supply, we have purchased from Flora M. Johnson, the lot of land with buildings thereon known as the Glover property, in the Hick's Spring Reservation. This plot of land is designated as Lot 10, Block D, Oakhurst, situated off Dedham avenue, near the New York, New Haven & Hartford Railroad.

We have also considered the matter of planting trees on the "Colburn Farm" water works land. This subject was taken up with the Massachusetts Forest Service in August, and we were advised to postpone action until spring. The plan under consideration is to plant seedlings of different varieties to which the soil is suitable, leaving only spaces for roadways according to a plan which has been prepared. The seedlings are inexpensive, costing from $4 to $8 a thousand, and if they can withstand the ravages of the winter storms and the summer fires, should in a few years not only beautify the landscape but also be an ever increasing factor in protecting and increasing our water supply.

Bonds.

Bonds to the amount of $6,500 have matured and been paid during the year, as provided by Chapter 259 of the Acts of 1900, and in accordance with a vote of the town passed June 28, 1900. The outstanding bonds mature as follows:
